About This Workshop

Lean Six Sigma is a powerful process improvement system that helps organizations streamline operations, reduce waste and increase productivity. The **Lean Six Sigma Yellow Belt Certification** is a 1-day, instructor-led course that combines key concepts, tools and practical applications.

How it Works

- 1. Pre-Training:** Submit a business problem you are facing using our "Pain Point" template. We provide feedback to help you define and scope the problem and build the business case.
- 2. Training:** We explain the concepts and show you how to apply the tools and techniques to your project. You practice the exercises and build muscle memory. Participants take a certification exam to demonstrate knowledge and proficiency in Lean Six Sigma. Minimum 80% for passing.
- 3. Post-training:** Receive 1hour of personal coaching on your project and a compelling storyboard template to help ensure your success.

How You Will Benefit

- Apply powerful analytical tools to identify and verify root causes.
- Discover proven techniques for improving and streamlining processes.
- Successfully lead focused process-improvement projects.

What You Will Learn

- Lean Six Sigma Methodology
- DMAIC Framework
- 8 Wastes in the Office, Manufacturing, Logistics, IT, and Healthcare
- Value Add vs. Non-Value Add
- Push vs. Pull flow
- Variation (Common vs. Special Cause)
- Problem Definition
- Process Mapping
- Lean and Six Sigma Metrics
- Root Cause Analysis and Tools
- Improvement techniques (Jidoka, Standard Work, Checklists, ECRS, Poka-yoke, Visual Management, Kanban, 5S)
- Intro to Control Charts

Your Facilitator

Peter J. Sherman brings more than 25 years experience leading process improvement programs in manufacturing, technology and healthcare.

Peter is a Certified Lean Six Sigma Master Black Belt, ASQ Certified Quality Engineer, and ASCM Certified Supply Chain Professional.

From 2010-14, Peter served as Director of Process Excellence for Cbeyond Communications, a publicly-traded, \$500M revenue telecommunications provider based in Atlanta, GA. Previously, Peter was a Master Black Belt with AT&T for 10 years.

Peter began his career in Japan as a visiting M.I.T. Scholar in 1986-87. There he worked with Dr. Edwards Deming, the noted American Quality expert. Peter learned first-hand Japanese quality practices including the Toyota Production System and Kaizen. Later, he served as Lead Instructor of Emory University's Six Sigma Program in Atlanta, GA. Peter has authored nearly 100 articles on Lean Six Sigma and quality. He writes for *ASCM Magazine's* Operational Excellence column.

Peter holds a B.S. in Building Construction from the University of Florida, a M.S. in Civil Engineering from the Massachusetts Institute of Technology and an MBA from Georgia State University. Since 2014, Peter has served as Section Chair and Programs Chair of the ASQ Atlanta Section. He is also a member of ASCM.
